The BMW E34 is the third generation of the BMW 5 Series, which was produced from November 2, 1987 until 1996. Initially launched as a sedan in January 1988, the E34 also saw a "Touring" station wagon body style added in September 1992, a first for the 5 Series. BMW replaced the E34 with the E39 5 Series in December 1995, although E34 Touring models remained in production until June 1996. The E34 generation marked the first time all-wheel drive was incorporated into the 5 Series with the 525iX, a

1988-96 BMW E34 5-Series. The 1980s was a decade of rapid expansion for BMW. Having made a mountain of money out of its E30 range, it spent the lot developing a swanky new-generation E32 7-Series, and finally replacing the mid-sized E28 5-Series with a modern and relevant contender. Arriving in 1988 with a fresh shape and vastly improved dynamics, the E34 5-Series offered the world market a massive model

An upgrade that would be on the affordable end, Would be OEM E34 M5 sway bars. they are the thickest made from factory. A thicker sway bar, makes for less torsion in the bar, which equates to a stiffer chassis, a better handling car, and helps to reduce understeer, by holding the car straight through a corner.

BMW E39 M5 Buyer's Guide - E39 M5 Common Issues, Problems

Minus the edgy look that overtook later models from BMW the E34 was a classically elegant four-door sedan that boasted beautifully clean lines and balanced proportions. It was a great looker when it was new, and that it remains a good looking car today when there are still many on the road is a testament to the appeal of its styling.
