Problem 13-20: What type of intermolecular force must be overcome in converting each of the following from a liquid to a gas? (a) liquid O<sub>2</sub> The only force to overcome here is dispersion. There is no permanent dipole moment. (b) mercury Here, we have metal bonds to overcome. You can think of this as Hg ions immersed in a cloud of electrons.

Problems: Chapter 13

The Thirteen Problems is a short story collection by British writer Agatha Christie, first published in the UK by Collins Crime Club in June 1932 and in the US by Dodd, Mead and Company in 1933 under the title The Tuesday Club Murders. The UK edition retailed at seven shillings and sixpence (7/6) and the US edition at \$2.00.
