As a 24-year-old married man (who looks younger), I get that look all the time. It is almost inconceivable to people that someone as young and moderately not bad looking as myself could have tied the knot so early. But I did. They try to rationalize it by asking about my religion, political views, birth defects, history of mental illness, etc.

In [Midnight Confessions](#), poet Joy Olree, a self-described autistic poet with MS, presents a collection of user-friendly verse reflecting on her experiences with the world and her readings and studies of the Bible. She offers her opinions on a wide range of topics and invites disagreement and discussion. [Midnight Confessions](#) In the twinkling of an eye they came, the memory snatchers. First it was the short-term memories, then the medium ones. As time went by, more memories seem to leave, but she never forgot her God and she never did not pray. I put my hand on her bed as she breathed her last breath. I prayed, Thank you, Lord, for making it possible for me to be there. As I sit here in the lighted room, the dark outside, I miss my stepmom. Tomorrow is Christmas, a time of celebration, and I think to myself, Do I have anything to celebrate? Most of my family has died. I still have the children and the grandchildren. I guess I am blessed, and is that not the way of life? Us older folks die, and the young take our place, unless there is some unforeseen unexpected tragedy. But I have much to be thankful for this Christmas. See, because of my decision to take care of my stepmom at the nursing home, I now have a new set of friends. A nursing home full of friends. Thank you, stepmom and God, for making this possible. Merry Christmas and a happy New Year, humanity.

[ESPIONAGE. FRAUD. POLITICS.](#) "This book is one of the most chilling and compelling business stories I've ever read. Lynn Brewer lived the Enron story, and in a deeply personal, yet highly professional way, lets us peek into what can go horribly wrong in a publicly-traded business. There are some great lessons for leadership in this tale." Oren Harari, Author, [The Leadership Secrets of Colin Powell](#) "In this incredibly lucid and juicy account of Enron's shenanigans, Lynn Brewer courageously reveals what went on behind the scenes. What she reports will shock the financial press who voted Enron "the most innovative and admired" five years in a row. It will shame research analysts and investors who drove Enron's stock up into the stratosphere - while never being able to explain how Enron made money. Brewer hasn't forgotten the teachers, the small business owners and retirees who lost a bundle when the house of cards came crashing down. She urges us to see Enron not simply as the failure of a few people and institutions. No, it is symptomatic of our win-at-any-cost culture. To prevent future Enrons, we all must look to see how our choices perpetuate this culture, which ultimately, like Enron, is unsustainable." L. J. Rittenhouse, Author, [Do Business With People You Tru\\$: Balancing Profits and Principles](#) "Lynn Brewer unabashedly exposes the unchecked greed and chicanery operating in the leadership of Enron. Her story clearly reveals how the unethical leadership at Enron led to an unbearable culture of emotional turbulence and fear, drawing everyone into a web of deceit. Readers will get the inside view of one of the country's biggest corporate scandals." Danna Beal, M.Ed., Author, [Tragedy in the Workplace: The Longest Running Show in the Country LIES: DECEPTIONS, SCANDAL, ENRON.](#) [Confessions of an Enron Executive: A Whistleblower's Story](#), is Lynn Brewer's gripping account of nearly three years spent with the company that has come to symbolize the worst in corporate greed. Lynn's riveting tale takes you deep into the heart of Enron for a shocking look at both the notorious illicit deals and the unscrupulous people who made them. Having spent time with Enron's water company, trading division, power trading desk, and the broadband unit, coupled with Lynn's background in accounting and law, a scandalous portrait emerges of a company run amok in the name of naked avarice. Fascinating, revelatory, and often times hilarious, [Confessions of an Enron Executive: A Whistleblower's Story](#) details the riveting account of her career at Enron, and her decision to blow the whistle to lawyers and the United States Government, long before the world had ever heard of Sherron Watkins. As our interactions with others become ever more mediated by various forms of electronic communication, the relationship between crime and technology is becoming an increasingly important topic for both theoretical and practical studies of criminology. This book analyzes digital communications as they play a part in contemporary homicide, drawing on a range of cases from the United Kingdom and elsewhere in the world—cases where killers confessed on social media, for example, or where their actions were traced using their digital communications. Offering a groundbreaking conceptual framework for people studying this issue, the book will be of great value to criminologists, students, and police officers.
