Dead Famous Ben Elton
Dead Famous (2001) is a comedy / whodunit novel by Ben Elton in which ratings for a reality TV show, very similar to Big Brother, rocket when a housemate is murdered. Unlike a typical whodunnit, Elton does not reveal the identity of the victim until around halfway into the book.

Dead Famous (novel)—Wikipedia
Elton uses the same format as in his later novel 'Identity Crisis', with an old-school policeman baffled and unimpressed by the modern world he is forced to confront in order to solve the mystery. He relentlessly satirises reality television and its exploitative nature. And it is genuinely, even laugh-out-loud funny at times.

Ben Elton turns his dark wit to Big Brother and its spawn with his dramedy Dead Famous. The premise is as you would expect – a handful of strangers being filmed in a house 24/7 with evictions occurring on a weekly basis. The twist: somebody inside this CCTV-rigged house manages to get themselves murdered.

One house. Ten contestants. Thirty cameras. Forty microphones. Yet again the public gorges its voyeuristic appetite as another group of unknown and unremarkable people submit themselves to the brutal exposure of the televised real-life soap opera, House Arrest. Everybody knows the rules: total strangers are forced to live together while the rest of the country watches them do it. Who will crack first? Who will have sex with whom? Who will the public love and who will they hate? All the usual questions. And then, suddenly, there are some new ones. Who is the murderer? How did he or she manage to kill under the constant gaze of the thirty television cameras? Why did they do it? And who will be next?

One house, ten contestants, thirty cameras, forty microphones, one murder and no evidence. Dead Famous is a killer read from Ben Elton u Reality TV as you've never seen it before.
Reality television takes a deadly turn when ten contestants in a single house that comes complete with cameras and microphones are suddenly confronted by a murder with absolutely no evidence. Original.

Chart Throb.The ultimate pop quest. Ninety five thousand hopefuls. Three judges. Just one winner. And that's Calvin Simms, the genius behind the show. Calvin always wins because Calvin writes the rules. But this year, as he sits smugly in judgement upon the mingers, clingers and blingers whom he has pre-selected in his carefully scripted 'search' for a star, he has no idea that the rules are changing. The 'real' is about to be put back into 'reality' television and Calvin and his fellow judges (the nation's favourite mum and the other bloke) are about to become ex-factors themselves. Ben Elton, author of Popcorn and Dead Famous returns to blistering comic satire with a savagely hilarious deconstruction of the world of modern television talent shows. Chart Throb. One winner. A whole bunch of losers.

With old friends like these, who needs enemies? It's a question mild mannered detective Edward Newson is forced to ask himself when, in romantic desperation, he logs on to the Friends Reunited website in search of the girlfriends of his youth. Newson is not the only member of the Class of take back '88 who has been raking over the ashes of the past. As his old class begins to reassemble in cyberspace, the years slip away and old feuds and passions burn hot once more. Meanwhile, back in the present, Newson's life is no less complicated. He is secretly in love with Natasha, his lovely but very attached sergeant, and failing comprehensively to solve a series of baffling and peculiarly gruesome murders. A school reunion is planned and as history begins to repeat itself, the past crashes headlong into the present. Neither will ever be the same again. In Past Mortem, Ben Elton - previous winner of The Crime Writers' Association Gold Dagger Award for Popcorn - delivers both a heart-stopping thriller and a killer comic romance.

The war on drugs has been lost but for want of the courage to face the fact that the whole world is rapidly becoming one vast criminal network. From pop stars and princes to crack whores and street kids. From the Groucho Club toilets to the poppy fields of Afghanistan, we are all partners in crime. HIGH SOCIETY is a story or rather a collection of interconnected stories that takes the reader on a hilarious, heart breaking and terrifying journey through the kaleidoscope world that the law has created and from which the law offers no protection.

For amiable City trader Jimmy Corby money was the new Rock n' Roll. His whole life was a party, adrenaline charged and cocaine fuelled. If he hadn't met Monica he would probably have ended up either dead or in rehab. But Jimmy was as lucky in love as he was at betting on dodgy derivatives, so instead of burning out, his star just burned brighter than ever. Rich, pampered and successful, Jimmy, Monica and their friends lived the dream, bringing up their children with an army of domestic helps. But then it all came crashing down. And when the global financial crisis hit, Jimmy discovers that anyone can handle success. It's how you handle failure that really matters.

Flanders, June 1917: a British officer and celebrated poet, is shot dead, killed not by German fire, but while recuperating from shell shock well behind the lines. A young English soldier is arrested and, although he protests his innocence, charged with his murder. Douglas Kingsley is a conscientious objector, previously a detective with the London police, now imprisoned for his beliefs. He is released and sent to France in order to secure a conviction. Forced to conduct his investigations amidst the hell of The Third Battle of Ypres, Kingsley soon discovers that both the evidence and the witnesses he needs are quite literally disappearing into the mud that surrounds him. Ben Elton's tenth novel is a gut-wrenching historical drama which explores some fundamental questions. What is murder? What is justice in the face of unimaginable daily slaughter? And where is the honour in saving a man from the gallows if he is only to be returned to die in a suicidal battle? As the gap between legally-sanctioned and illegal murder becomes evermore blurred, Kingsley quickly learns that the first casualty when war comes is truth.

Lucy desperately wants a baby. Sam is determined to write a hit movie. The problem is that both their efforts seem to be unfruitful. And given that the average IVF cycle has about a one in five chance of going into full production, Lucy's chances of getting what she wants are considerably better than Sam's. What Sam and Lucy are about to go through is absolutely inconceivable. The question is, can their love survive? Inconcievable confirms Ben Elton as one of Britain's most significant, entertaining and provocative writers.

Stark is a secret consortium with more money than God, and the social conscience of a dog on a croquet lawn. What's more, it knows the Earth is dying. Deep in Western Australia where the Aborigines used to milk the trees, a planet-sized plot is taking shape. Some green freaks pick up the scent: a pommie poseur; a brain-fried Vietnam vet; Aborigines who have lost their land...not much against a conspiracy that controls society. But EcoAction isn't in society: it just lives in the same place, along with the cockroaches. If you're facing the richest and most disgusting scheme in history, you have to do more than stick up two fingers and say 'peace'.
