Set 300 years before the events in A Song of Ice and Fire, FIRE AND BLOOD is the definitive history of the Targaryens in Westeros as told by Archmaester Gyldayn, and chronicles the conquest that united the Seven Kingdoms under Targaryen rule through to the Dance of the Dragons: the Targaryen civil war that nearly ended their dynasty forever.

"A stimulating compendium" on topics from antibiotics to animals, featuring Rebecca Solnit, E.O. Wilson, Nicholas Carr, Elizabeth Kolbert, and many more (Kirkus Reviews). "A consistently strong series . . . Making connections between seemingly unrelated topics can help expand thinking, as seen in the effects of automated navigation on both airplane pilot error and Inuit hunting accidents that Nicholas Carr explores in 'The Great Forgetting.' Sarah Stewart Johnson makes a similar connection between the loss of a 1912 Antarctic expedition and the explosion of the space shuttle Challenger in 'O-Rings.'" . . . Essays like Virginia Hughes's '23 and You' investigates the effects of availability of individual genetic information on human interactions, while pieces like Maryn McKenna's 'Imagining the Post-Antibiotics Future' and Kate Sheppard's 'Under Water' remind us of unpleasant futures which we have in large part created ourselves. But Barbara Kingsolver's 'Where It Begins,' a lyrical musing on connectedness, or Wilson's optimistic, bug-loving 'The Rebirth of Gorongosa,' reveal that among the strange, shocking, or depressing, there is still unadulterated joy to be found." --Publishers Weekly "Undeniably exquisite . . . meditations that reveal not only how science actually happens but also who or what propels its immutable humanity." --Maria Popova, Brain Pickings Contributors include: Katherine Bagley • Nicholas Carr • David Dobbs • Pippa Goldschmidt • Amy Harmon • Robin Marantz Henig • Virginia Hughes • Ferris Jabr • Sarah Stewart Johnson • Barbara J. NOW THE ACCLAIMED HBO SERIES GAME OF THRONES--THE MASTERPIECE THAT BECAME A CULTURAL PHENOMENON Winter is coming. Such is the stern motto of House Stark, the northernmost of the fiefdoms that owe allegiance to King Robert Baratheon in far-off King's Landing. There Eddard Stark of Winterfell rules in Robert's name. There his family dwells in peace and comfort: his proud wife, Catelyn; his sons Robb, Brandon, and Rickon; his daughters Sansa and Arya; and his bastard son, Jon Snow. Far to the north, behind the towering Wall, lie savage Wildings and worse-unnatural things relegated to myth during the centuries-long summer, but proving all too real and all too deadly in the turning of the season. Yet a more immediate threat lurks to the south, where Jon Arryn, the Hand of the King, has died under mysterious circumstances. Now Robert is riding north to Winterfell, bringing his queen, the lovely but cold Cersei, his son, the cruel, vainglorious Prince Joffrey, and the queen's brothers Jaime and Tyrion of the powerful and wealthy House Lannister--the first a swordsman without equal, the second a dwarf whose stunted stature belies a brilliant mind. All are heading for Winterfell and a fateful encounter that will change the course of kingdoms. Meanwhile, across the Narrow Sea, Prince Viserys, heir of the fallen House Targaryen, which once ruled all of Westeros, schemes to reclaim the throne with an army of barbarian Dothraki--whose loyalty he will purchase in the only coin left to him: his beautiful yet innocent sister, Daenerys.

Living Language Dothraki brings the world of Game of Thrones to life with a conversational language course teaching Dothraki, the language developed for the HBO series by language and culture consultant David J. Peterson and first seen in George R.R. Martin's A Song of Ice and Fire series. The 128-page coursebook features a step-by-step guide to pronunciation, basic phrases, easy-to-follow grammar explanation and examples, extensive thematic vocabulary lists, dialogue, and exercises for reinforcement. Living Language Dothraki also includes a one-hour audio CD of essential phrases and vocabulary so that learners can speak Dothraki with confidence. Additional notes about the language and the culture of the Dothraki people appear throughout the coursebook to give the language context.

Before Breakfast at Tiffany's Audrey Hepburn was still a little-known actress with few film roles to speak of; after it - indeed, because of it - she was one of the world's most famous fashion, style and screen icons. It was this film that matched her with Hubert de Givenchy's "little black dress". Meanwhile, Truman Capote's original novel is itself a modern classic selling huge numbers every year, and its high-living author of perennial interest. Now, this little book tells the story of how it all happened: how Audrey got the role (for which at first she wasn't considered, and which she at first didn't want); how long it took to get the script right; how it made Blake Edwards' name as a director after too many trashy films had failed to; and how Henry Mancini's soundtrack with its memorable signature tune 'Moon River' completed the irresistible package. This is the story of how one shy, uncertain, inexperienced young actress was persuaded to take on a role she at first thought too hard-edged and amoral - and how it made Audrey Hepburn into gamine, elusive Holly Golightly in the little black dress - and a star for the rest of her life.
