Half-Moon Investigations—Eoin Colfer

Half Moon Investigations is a surprisingly (and refreshingly) NON fantasy novel from Eion Colfer. I love the Artemis Fowl books and found The Supernaturalist to be interesting (if not great) so it's obvious I would pick this book up right away.

Fletcher Moon has never been like other kids. For one thing, he has had to suffer the humiliating nickname "Half Moon" because of his short stature. But the real reason Fletcher is different is that ever since he was a baby, he's had a nose for sniffing out mysteries. And after graduating at the top of his Internet class, he is officially certified as the youngest detective in the world.

Artemis has committed his entire fortune to a project he believes will save the planet and its inhabitants, both human and fairy. Can it be true? Has goodness taken hold of the world's greatest teenage criminal mastermind? Captain Holly Short is unconvinced, and discovers that Artemis is suffering from Atlantis Complex, a psychosis common among guilt-ridden fairies - not humans - and most likely triggered by Artemis's dabbling with fairy magic. Symptoms include obsessive-compulsive behavior, paranoia, multiple personality disorder and, in extreme cases, embarrassing professions of love to a certain feisty LEPrecon fairy

Eoin Colfer has made millions of fans around the world with his much-loved character, Artemis Fowl, the star of his hugely best-selling series. Now, in a beautifully written novel that is already breaking records in his native Ireland, Colfer introduces readers to a lovable but troubled heroine, who has been given the opportunity for a special kind of redemption.Meg Finn is in trouble-unearthly trouble.

Ten thousand years ago, humans and fairies fought a great battle for the magical island of Ireland. When it became clear to the fairy families that they could never win, they decided to move their civilization underground and keep themselves hidden from the humans. All the fairy families agreed on this, except the 8th family, the demons. The demons planned to lift their small island out of time until they had regrouped and were ready to wage war on the humans once more. However the time spell went wrong, and the island of Hybras was catapulted into Limbo, where it has remained for ten thousand years.

Riley, an orphan boy living in Victorian London, has achieved his dream of becoming a renowned magician, the Great Savano. He owes much of his success to Chevie, a seventeen-year-old FBI agent who traveled from the future in a time pod and helped him defeat his murderous master. Albert Garrick. But it is difficult for Riley to enjoy his new life, for he has always believed in his heart of hearts that Garrick will someday, somehow, return to seek vengeance. Chevie has assured Riley on numerous occasions that Garrick was sucked into a temporal wormhole, never to emerge. The full nature of the wormhole has never been understood, however, and just as a human body will reject an unsuitable transplant, the wormhole eventually spat him out. By the time Garrick makes it back to Victorian London, he has been planning his revenge on Riley for half a century. But even the best-laid plans can go awry, and when the assassin decides to include Chevie in his retaliation, the three are tossed once more into the wormhole with no idea where—or when—they will end up.

In Screwed, Colfer adds and entirely new chapter to the adventures and misadventures of Daniel McEvoy, the down-on-his-luck Irish bouncer at a seedy New Jersey bar who, with the help of a motley crew of unlikely characters, solved a bizarre string of murders—including the one of the girl he loved. But people around him continue to die mysteriously, and Daniel is called into action once again. Colfer, beloved by millions for his Artemis Fowl series, has written a riveting and relentlessly paced sequel that is sure to garner international praise. With wildly inventive imagination and head-spinning plot twists, Screwed is a tour de force that rivals Carl Hiassen at his very best. Ridley Pearson called Plugged "a brilliant, madcap mystery" and "genius at work." With Screwed, Colfer delivers that signature brilliance once again.

The hilarious debut novel from one of the world's favourite children's authors. Benny Shaw, a young sporting fanatic, is forced to leave his beloved Wexford, home of all his heroes, and move with his family to Tunisia! How will he survive in a place like this? Then he teams up with Omar, and a madcap friendship between the two boys leads to trouble, crazy escapades, a unique way of communicating, and heartbreaking challenges.
