Chinese people are known for being philosophical. A person doesn't necessarily have to be religious in order to be philosophical. You just have to learn the best ways to live your life so that you can have a more prosperous future. A classic Chinese manual entitled "Tao Te Ching" teaches people the art of living and the path you must take in order to find fulfillment in your life. This classic Chinese text was written by a sage named Laozi, also known as Lao Tzu. Laozi means "Old Master" in Chinese. Some people like to refer to this classic Chinese text as Laozi instead of Tao Te Ching because they have so much respect for the author. The sage, Laozi, is believed to have lived around 600 B.C. In his professional life, he worked as a record keeper for the Zhou Dynasty Court. However, historians are still unsure about the exact date and time when the Tao Te Ching was actually written. The only thing they know is that the oldest Chinese texts that were excavated dates back to sometime in the late 4th century B.C. Even though they were originally written in the 6th century, the texts that were excavated in the 4th century are likely rewritten texts. The Tao Te Ching is one of the main Chinese classic texts that promote the religious and philosophical principles of Taoism. It is the most fundamental book of text that is studied by all Taoists. It is also a strong influence on other Chinese schools that teach Confucianism, Legalism and Chinese Buddhism. Chinese painters, poets, gardeners and calligraphers use the philosophies of the book as a source of inspiration. The influence of the Tao Te Ching has spread far throughout Eastern Asia and is one of the most translated books ever written in the history of literature. In Roman culture, the book was transcribed using the Wade-Giles Romanization system. They transcribed the title as "Daodejing." The words "Dao" and "Tao" both mean "the way." The words "De" and "Te" both mean inner strength or virtuosity. And finally, the words "Jing" and "Ching" mean "classic" or "the great book." Therefore, the translation of Tao Te Ching and Daodejing is said to be "The Classic Way to Inner Strength." In other words, if you learn the philosophies in this book then you will have the knowledge of finding the right path to strength and happiness. Tao Te Ching is not a long book to read by any means. It is only 5,000 Chinese characters long with about 81 very brief sections or chapters. The writing is of a classical form of Chinese called zhuanshu. As the centuries went by, the later versions were written in Lishu and Kaishu. As for the chapters, no one knows if the separated chapters were originally placed there by Laozi or if they were added later on. Some people think they were added later on as a way to help memorize the information and add commentary. The whole book is divided into two main parts. The first part is the Tao Ching, which goes from chapter 1 to chapter 37. The second part is the Te Ching, which goes from chapter 38 to chapter 81. Some even refer to this style of writing as laconic and poetic because of its brief chapters and intentional contradictions. This writing is strategic in a sense because it creates memorable phrases and then forces the reader to create their own reconciliations from all the supposed contradictions. This is why it takes some people their entire lives to fully understand the message behind the text. For others, they never fully grasp it.

You've finally reached the pivotal moment in your life to get clean and sober. I welcome you to join me as I share my quest for addiction recovery and sobriety. This book is hopeful and encouraging. It is a must read for the fellow addict that deserves a new chapter in life. I wrote this book with the burning desire and a passion for reaching out to fellow addicts as a resource for them to possibly utilize some of my experiences and methods for recovery and relapse prevention. The book encompasses my life journey from my early teen years into adulthood as an addict, which details some of the painful aspects that encouraged me to turn to substance abuse as a coping mechanism. This book also alludes to my experience with the recovery process which I share many of the self-researched and time-tested techniques that helped me cultivate my successful rehabilitation process. Addiction exerts a long and powerful influence on the brain that manifests in three distinct ways: craving for the object of addiction, loss of control over its use, and continuing involvement with it despite adverse consequences. While overcoming addiction is possible, the process is often long, slow, and complicated. The word "addiction" is derived from a Latin term for "enslaved by" or "bound to." Anyone who has struggled to overcome an addiction - or has tried to help someone else to do so - understands why, and ultimately, we can understand that addiction is a "dis-ease". From my experience, addiction is also a disease of isolation. The question of whether addiction is a disease or not has perplexed clinicians and scholars and researchers for decades. At one point, addiction was easily called the disease. At other points in time, there was considerable debate about how to classify these phenomena. I think it's best to talk about the disease of addiction. The word "addiction" is derived from a Latin term for "enslaved by" or "bound to." unaware that we had these addictions that are conveniently labeled as a "disease." However, the fact is that each one of us is a unique individual with our own story to tell. Usually, the suffering alcoholic/ addict hits a point called "rock bottom" in their lives where they choose to get better or turn for the worse. When this happens, life-changing events usually transpire to test the person's character and integrity. Hitting "rock bottom" was my personal alarm clock for realizing I had a serious substance abuse problem. There was a defining moment in my life that turned a page, sending me in a new direction. Making the transition from being actively addicted to being in recovery is a complex physical and psychological process. There is a lot to learn in recovery and we have to make a lot of changes internally and externally. Writing this book has given me a wholesome and hopeful perspective on life and the world we live in. I find that I spend more time embraced in bold prayer and meditation which grants me the influence to believe in miracles for others. I trust that there are great people in this world that contribute to making a significant difference, consequently making the world a better place for all of us to live in. Composing this book was my contribution to 'pay it forward' in a positive way. I am honored.

Do you ever feel like you could do more with your life, but you don't know where to start? Do great ideas keep going through your mind, barely changing from year to year? Do you need the tools to get you going in the right direction? This book has one purpose: To help you make your dream come true, no matter how big that dream might be. To change your life you need the desire to change and the commitment to make that change possible through action. Mind to Mind Conversations will help start you on the path to a new life.

Discusses interpretations of the Yijing (the I Ching or Book of Changes) during the Northern Song period and how these illuminate the momentous changes in Chinese society during this era.

Fiction. Winner of a 2009 PEN/Beyond Margins Award. At once a fairy tale, a fortune, and a translation told through the I Ching, Vietnamese-American author Lily Hoang's CHANGING is a ghostly and miniature novel. Both mysterious and lucid at once, the book follows Little Girl down a century-old path into her family's story. Changing is Little Girl's fate, and in CHANGING she finds an unsettling, beautiful home. Like a topsy-turvy horoscope writer, Hoang weaves a modern novella into the classical form of the I Ching. In glassine sentences, fragmented and new, Jack and Jill fall down the hill over and over again in intricate and ancient patterns. Here is a wonder story for 21st century America. Here is a calligraphic patchwork of sadness. "This is an impossible thing, a dream object."--Joyelle McSweeney
