The voluminous book provides a range of international theories and methodologies in analytical folklore investigations, and a

classification scheme based on genre is offered as the system of taxonomy for Philippine traditional materials. Lopez counts on the regional folklorists to refine the classification according to the texts of their respective areas. The different

Page 39/62

genres, too, are explained and examined in another part of Lopez's study. The reader will definitely find interesting and useful, the illustrative examples for each genre.

Street photographers will never tire of New York as a subject. It is the perfect setting for the genre, the world's most evocative cityscape, against which candid, memorable moments play themselves out every day. Nearly Page 41/62

a decade ago, Vivienne Gucwa began walking the streets of the city with the only camera she could afford a sub-\$100 point-andshoot and started taking pictures. Choosing a direction and going as far as her feet would take her, she noticed lines, forms and Page 42/62

structures that had previously gone unnoticed but which resonated, embodying a sense of home. Having limited equipment forced her to learn about light, composition and colour, and her burgeoning talent won her blog millions of readers and wide

recognition in the photographic community. New York Through the Lens showcases the stunning results of her ongoing quest. Filled with spectacular photographs and illuminated by Vivienne's own insightful commentary, NY Through the Page 44/62

Lens acts as a beautiful travel guide to the city; it will be a mustread for her many fans and for any lover of street photography.

Filled with warmth and humor, Somewhere in the Middle captures the simple joy found in Page 45/62

ordinary moments and in the people we share our lives with, shedding new light on what it truly means to find the place where you belong.

Little work has been done to explicate the motivational factors

Page 46/62

of agency, particularly in cases where an artifact initially deemed ineffective or superfluous becomes an everyday necessity, such as the automobile at the turn of the twentieth century. Farmers saw it as a "devil wagon" but later adopted it for use as an Page 47/62

all-around device and power source. What makes a social group change its position about a particular artifact? How did the devil wagon overcome its notoriety to become a prosaic mainstream device? These questions direct the research in

Page 48/62

this book. While they may have been asked before, author Imes Chiu (PhD, Cornell University) brings a different and refreshing approach to the problem of newness. Preexisting practices and work routines used as explanatory devices have

Page 49/62

something interesting to say about diffusion strategies and localization measures. This innovative study examines the conversion of users. To understand the motivating factors in mass adoption, the study focuses on perceptions and Page 50/62

practices associated with horses and motorcars in three different settings during three different periods. All three cases begin with the motorcar in the periphery: all three end with it achieving ubiquity. This multiplecase design is used for the

Page 51/62

purpose of theoretical replication. Results in all three cases show that a contrived likeness to its competitor-the horse-contributed to the motorcar's success. The motorcar absorbed the technical, material, structural, and conceptual resources of the

Page 52/62

technology it displaced. This book, which includes several rare photographs, will be an important resource for those who wish to study the history of transportation and technology adaptation.

Discusses the traditions, culture, religion, media, literature, and arts of the Philippines.

\*\*Winner of the Moonbeam Page 54/62

Children's Book Award Gold Medal for Activity Book — Education, Science, History\*\* This familyfriendly Philippines children's book is packed with fun facts about Filipino culture, history, and daily life! All About the Philippines takes you on an incredible

Page 55/62

journey across the colorful island nation of the Philippines with Mary, Jaime, and Ari—three Filipino cousins who look entirely different and yet are the best of friends. You'll visit their homes, their schools, their families, their favorite places, and much more.

They'll show you how kids in different parts of the Philippines come from many different ethnic groups and have very various cultures—each with separate traditions, languages, and beliefs—and yet, they are all 100% Filipino! This children's Page 57/62

book, aimed at kids ages 8 to 12, brings them on an exciting trip through some of the most fascinating islands on earth. Join Mary, Jaime and Ari to see the how earthquakes, typhoons and other natural events can be scary and yet also make the islands Page 58/62

beautiful and full of life. Check out Filipino games, and make a sipa—the Philippines's version of a hacky-sack. Experience the festivals and foods of different cultures found in the Philippines, and try a few easy recipes. Make a parol—a Filipino holiday

Page 59/62

decoration that you can enjoy all year long. Learn about the conquistadors and traders who came to these islands many centuries ago. Learn how peoples who speak very different languages can communicate when they meet. And a lot more! Page 60/62

Along with fun facts, you'll learn about the spirit of the Philippines that makes this country and its people unique. This is a book for families or classrooms to enjoy together.
