One of Time 's 100 best English-language novels • A mind-altering romp through a future America so bizarre, so outrageous, you ' ll recognize it immediately Only once in a great while does a writer come along who defies comparison—a writer so original he redefines the way we look at the world. Neal Stephenson is such a writer and Snow Crash is such a novel, weaving virtual reality, Sumerian myth, and just about everything in between with a cool, hip cybersensibility to bring us the gigathriller of the information age. In reality, Hiro Protagonist delivers pizza for Uncle Enzo ' s CosoNostra Pizza Inc., but in the Metaverse he ' s a warrior prince. Plunging headlong into the enigma of a new computer virus that ' s striking down hackers everywhere, he races along the neon-lit streets on a search-and-destroy mission for the shadowy virtual villain threatening to bring about infocalypse. Praise for Snow Crash " [Snow Crash is] a cross between Neuromancer and Thomas Pynchon ' s Vineland. This is no mere hyperbole. " —The San Francisco Bay Guardian " Fast-forward free-style mall mythology for the twenty-first century. " —William Gibson " Brilliantly realized . . . Stephenson turns out to be an engaging guide to an onrushing tomorrow. " —The New York Times Book Review

Charles C. McDougal lived in Asia for twenty years, including ten years in the Philippines from 1972 to 1982. His impeccable research stems from an academic background whose credentials include a bachelor of science degree from the University of Georgia, a master's degree from the Asian Institute of Management, and a doctorate in business from the University of the Philippines. The data he gathered for his doctoral dissertation was the genesis of his 1987 book "The Marcos File", which exposed the Marcos regime for its corruption and excesses. It was while working on a book about Marcos' hidden wealth that he stumbled on the story of a treasure hunt headed by Marcos. His close friendship with the national security director provided him access to the corridors of power. He was asked to find out the truth, both about the legendary treasure and the Marcos gold. His academic credentials, plus his military background-- he was a captain in the Green Berets in Vietnam-- made him a natural choice. He returned to the Philippines. A cave-in killed two of his men and overnight this top-secret operation made the front page of almost every major newspaper in the world.
