There are over 2000 registered historic buildings in Shanghai, with hundreds more waiting to be added. Most are pre-War structures and are either Western buildings, or Chinese-style buildings with a distinct Western influence. These include villas, offices, apartment buildings and shikumen (a house of both wood and brick). Structures were selected for this book because of the interesting stories behind them or because they were related to a topical news event.

This volume focuses on the westernized universities, in the US and abroad and examines the various dimensions of the education crisis and provides a sharper understanding of the crisis and the responses to the westernized university at multiple sites around the world.
