1) In your document library, click on the Tiles link and then again click on the Save view as which will open a popup. Enter a name like Tiles view which will then appear as below: Once it appears, you will also have the option to set it as default view as below: Once you click this, the Tiled view will be the default view of the site.

Can i set the default view for my Document library inside ...
library takes some further actions when package methods is attached (as it is by default). Packages may define formal generic functions as well as re-defining functions in other packages (notably base) to be generic, and this information is cached whenever such a namespace is loaded after methods and re-defined functions (implicit generic s) are excluded from the list of conflicts.

library function / R Documentation

Relation to WORK Library. The USER libref overrides the default libref WORK for one-level names. When you refer to a file by a one-level name, SAS looks first for the libref USER. If USER is assigned to a SAS library, files with one-level names are stored there. If you have not assigned the libref USER to a library, the files with one-level ...

SAS Libraries: SAS System Libraries

A default value can be a value that you specify, the date an item is added to a list or library, or the result of a calculation, which is called a calculated value. Calculated values are helpful when you want to display a specific date or time automatically but the date or time might vary depending on the item.

List and library column types and options - SharePoint
