Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing for a peer-reviewed scientific journal. From structure to style, titles to tables, abstracts to author lists, this book gives practical advice about the process of writing a paper and getting it published.

Strategic Integration Edited by Howard Thomas and Don O'Neal University of Illinois, USA What a company might do; could do; wants to do; should do. These are the four elements of strategy which illustrate the integrative nature of strategic management. It quickly becomes apparent that the key to successful strategy is effective integration of resources, competences, markets, opportunities, organizational structure, culture, environment, innovation, technology, processes, decisions and actions. There are four crucial areas of debate and these are covered in depth. They are:- Boards and Governance suggests that no element of strategy is better positioned to influence strategy and its integration than senior management. Competition and Core Competences examines their interdependence and relationship with successful strategy. Organizational Restructuring discusses organizational types, IT and strategy, managing in a dynamic environment and measurement of strategic performance. Technology demonstrates relationship between technological change and strategy, structure, culture, and competition; and the relationship between quality and strategy, and integrating technology and marketing strategies. Strategic Integration is concerned with building and maintaining bridges between theory and practice. On the research side it generates and tests theories related to business and management; and on the practitioner side it shows how to learn, understand, and apply tested theories in practice.

This book draws on recent theoretical contributions in the area of global talent management and presents an up to date and critical review of the key issues which MNEs face. Beyond exploring some key overarching issues in global talent management the book discusses the key emerging issue around global talent management in key economies such as China, India, the Middle East and Eastern Europe. In contrast to many of the currently available texts in the area of global talent management which are descriptive and lacking theoretical rigor, this text emphasizes the critical understanding of global talent management in an organizational context. Drawing on contributions from the leading figures in the field, it will aid students, practitioners and researchers alike in gaining a well grounded and critical overview of the key issues surrounding global talent management from a theoretical and practical perspective.

comprises review oriented papers that look at what kind of methodologies have been applied, as well as methodological papers discussing new developments needed to successfully conduct research in supply chain management. The third group is made up of applications of the respective methodologies, which serve as examples on how the different methodological approaches can be applied. All papers have undergone a review process to ensure their quality. Therefore, we hope that this book will serve as a valid source for current and future researchers in the field. While the workshop on "Research Methodologies in Supply Chain Management" took place at the Supply Chain Management Center, Carl von Ossietzky University in Oldenburg, Germany, it is based on a collaboration with the Supply Chain Management Group of the Department of Operations Management at the Copenhagen Business School and the Department of Production Management at the Vienna University of Economics and Business Administration. We would like to thank all those who contributed to the workshop and this book.
