from 2.5 to 350 horsepower for more than 75 years, though the company's first motors did not have as much horsepower as some of its current motors.

How to Troubleshoot a Mercury Outboard Engine | Gone ...

Mercury outboards are one of the most popular outboards on the water. They are dependable, powerful and relatively quiet. They make high-quality, high-performance one and two-stroke engines. However, they don't always fire right up when you try to start them. There's a few things you need to know before they'll turn over. Step 1. Ensure there is plenty of gas in the boat fuel tanks. Step 2 ...

How to Start a Mercury Outboard Motor | It Still Runs

I have a Mercury 40 HP Outboard Boat Motor and I am having some trouble with it getting it up and going. I can start it up and run it at idle speed with no problem.

The problem is that when I give it full throttle it doesn't take off like it used to. It will go up to a certain point and stay there for about 1 minute solid and then it acts like it wants to go by jerking forward then backing down.

What can I do to fix my Mercury 40 HP Outboard Boat Motor ...

FourStroke jet outboards are electronic fuel injected, with a range from 25 to 40 horsepower. Engine Information and Specifications

Jet 25-40hp | Mercury Marine

Because Yamaha was known for its instruments and not its maritime equipment, many joked that was why Yamaha's outboard motors were so loud. Rather than just going with the tried and true, Yamaha listened and began to build motors that aren't quite so noisy. Yamaha currently makes outboard motors that can get anywhere from 2.5 hp to 425 hp ...
