Based on anthropological field research, *Unearthing Gender* analyzes folk

At the heart of the book is a library of songs, in their original Bhojpuri and in English translation, framed by Jassal's analytic insights into the complexities of gender and power. The power of these songs, Jassal argues, lies in hinting and suggesting themes

women sing what they
often cannot talk

This book highlights the important need for more efficient and environmentally sound combustion technologies that utilise renewable fuels to be continuously developed and adopted. The central theme here is two-

combustion engines
and fuel solutions for
combustion systems.
Internal combustion
engines remain as the
main propulsion
system used for
ground transportation,
and the number of
successful
developments
achieved in recent
years is as varied as

concepts introduced.

It is therefore timely that key advances in engine technologies are organised appropriately so that the fundamental processes, applications, insights and identification of future development can be consolidated. In the future and

across the developed
and emerging
markets of the world,
the range of fuels
used will significantly
increase as biofuels,
new fossil fuel

processing methods,
as well as variations
in fuel standards
continue to influence
all combustion

now and in coming streams. This presents a challenge requiring better understanding of how the fuel mix influences the combustion processes in various systems. The book allows extremes of the theme to be covered in a simple yet progressive way.

A practical guide to prosperity magic using amulets, talismans, and rituals. Elhoim Leafar, author of *The Magical Art of Crafting Charm Bags*, offers a clear, basic treatise on the magic of prosperity and manifesting positive abundance. No prior magical experience is required, although the

material is also
suitable for adepts.

The book is divided into two sections: The first section guides the reader through some basic, if simultaneously sophisticated, magical theory including the power of attraction. Readers are encouraged to develop a magical

mindset. The second section puts theory into practice. Leafar features 21 (3 x 7, a very magical and auspicious number, as adepts will immediately recognize) rituals, amulets, and talismans for creating and living the life you desire. Techniques are derived from

diverse influences
blending modern
paganism with Afro-
Caribbean and Latin
American magic,
reflecting the author's
background and
making the material
accessible to readers
walking a variety of
magical paths.
