register for and use Revel.

The most learner-centered and assessment-driven text available. Ciccarelli/White, *Psychology*, 3/e is praised for a very engaging writing style, comprehensive coverage of key research, and strong pedagogical features. This best-selling text focuses on getting students to actually read their textbook. The authors use the recommended APA undergraduate psychology learning outcomes and establish clear learning objectives for students, while tying the text assessment to these objectives. Student and instructor feedback from extremely successful first and second editions emphasize the appeal of Ciccarelli/White's approach to teaching and learning in today's classroom.

In the Second Edition of *Scientific Writing for Psychology*, veteran teacher, editor and author, Robert V. Kail provides straightforward strategies along with hands-on exercises for effective scientific writing in a series of seven lessons. Kail shares an abundance of writing wisdom with "tools of the trade"—heuristics, tips, and strategies—used by expert authors to produce writing that is clear, concise, cohesive, and compelling. The exercises included throughout each extensively class-tested lesson allow students to practice and ultimately master their scientific writing skills.

This unique book closes the gap between psychology books and the research that made them possible. Its journey through the "headline history" of psychology presents 40 of the most famous studies in the history of the science, and subsequent follow-up studies that expanded their findings and relevance. Readers are granted a valuable insider's look at the studies that continue to be cited most frequently, stirred up the most controversy when they were published, sparked the most subsequent related research, opened new fields of psychological exploration, and changed most dramatically our knowledge of human behavior. For individuals with an interest in an introduction to psychology.

For courses in Introductory Psychology The most learner-centered and assessment-driven text available Throughout *Psychology*, Fifth Edition, Sandra Ciccarelli and J. Noland White employ a learner-centered, assessment-driven approach that maximizes student engagement, and helps educators keep students on track. The authors draw students into the discipline by showing how psychology relates to their own lives. Clear learning objectives, based on the recommended APA undergraduate learning outcomes, guide students through the material. And assessment tied to these learning objectives lets students check their understanding, while allowing instructors to monitor class progress and intervene when necessary to bolster student performance. MyLab(tm) Psychology not included. Students, if MyLab is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MyLab should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. MyLab Psychology is an online homework, tutorial, and assessment product designed to personalize learning and improve results. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.

This new AP* Edition will prove to be the most useful tool possible to introduce students to the study of psychology and to prepare them for success on the AP Psychology Exam. Special attention has been paid to the presentation, adjusting to be more relevant, appropriate, and clear
