Recognized as one of the most cited methodology books in the social sciences, the Sixth Edition of Robert K. Yin's bestselling text provides a complete portal to the world of case study research. With the integration of 11 applications in this edition, the book gives readers access to exemplary case studies drawn from a wide variety of academic and applied fields. Ultimately, Case Study Research and Applications will guide students in the successful design and use of the case study research method. New to this Edition Includes 11 in-depth applications that show how researchers have implemented case study methods successfully. Increases reference to relativist and constructivist approaches to case study research, as well as how case studies can be part of mixed methods projects. Places greater emphasis on using plausible rival explanations to bolster case study quality. Discusses synthesizing findings across case studies in a multiple-case study in more detail Adds an expanded list of 15 fields that have text or texts devoted to case study research. Sharpens discussion of distinguishing research from non-research case studies. The author brings to light at least three remaining gaps to be filled in the future: how rival explanations can become more routinely integrated into all case study research; the difference between case-based and variable-based approaches to designing and analyzing case studies; and the relationship between case study research and qualitative research.

*Exploring Nonfiction with Young Learners* explores the four basic nonfiction structures that the youngest learners are most likely to encounter: descriptive, recount/collection, procedural, and explanatory texts. This book also includes information to help teach four, more complex structures that younger readers sometimes encounter during read-alouds: comparison, response, causation/cause and effect, and persuasive genres. This book is organized to help plan lessons using each type of nonfiction structure. Strategies and suggestions for activities to use before, during and after reading are included. Templates and graphic organizers are also provided in order to facilitate planning, and offer additional resources. Detailed information about each text structure as well as mentor texts to illustrate each type is included. Text structures, as well as text access features, are defined and
