The authors recontextualize contemporary sociological theory to argue that in recent decades sociology has been deeply permeated by a new paradigm, conflict constructionism. Their analysis integrates and sheds new light on eight prominent domains of recent social thought: the micro-level; discourses, framing, and renewed interest in signs and language; the construction of difference and dominance; regulation and punishment; cultural complexity and transculturation; the body; new approaches to the role of the state; and a consistent conflict perspective. The paradigm combines elements of both social construction theory and conflict theory. It has deep roots in critical theory and more recent links to

postmodernism. It is associated with postmodern social thought, although it is less radical and more adaptable to empirical inquiry than postmodernism. The authors tie their new conceptualization of social theory to contemporary applications of social theory in everyday life. Features of this text:

the world's exotic locations. By invitation of the Fleming estate to mark the centenary of his birth, acclaimed novelist Sebastian Faulks picks up where Fleming left off, writing a tour de force that will electrify every James Bond fan. A fitting tribute to the Bond tradition, Devil May Care stands on its own as a triumph of witty prose and plenty of double-0 action. "In his house in Jamaica, Ian Fleming used to write a thousand words in the morning, then go snorkeling, have a cocktail, lunch on the terrace, more diving, another thousand words in the late afternoon, then more martinis and glamorous women. In my house in London, I followed this routine exactly, apart from the cocktails, the lunch, and the snorkeling."  
□Sebastian Faulks

As a child with Tourette syndrome, Brad Cohen was ridiculed, beaten, mocked, and shunned. Children, teachers, and even family members found it difficult to be around him. As a teen, he was viewed by many as purposefully misbehaving, even though he had little power over the twitches and noises he produced, especially under stress. Even today, Brad is sometimes ejected from movie theaters and restaurants. But Brad Cohen's story is not one of self-pity. His unwavering determination and fiercely positive attitude conquered the difficulties he faced in school, in college, and while job hunting. Brad never stopped striving, and after twenty-four interviews, he landed his dream job: teaching grade school and nurturing all of his students as a positive, encouraging role model. Front of the Class tells his inspirational story.
