A sound knowledge of biochemistry is essential to understand the pathophysiology of disease, its diagnosis, treatment, and follow up. Since the nursing community works closely in association with clinicians in-patient care, it is important for them to be aware of the biochemical aspects of human diseases. Textbook of Biochemistry for Nurses has been designed to cater the academic needs of the nursing students. An earnest effort has been made to present the subject in simple words. In this textbook, wherever necessary, clinical application of biochemical knowledge is mentioned. The information present in this textbook will be helpful to the nurses throughout their career.

A sound knowledge of biochemistry is necessary for understanding the pathophysiology of disease, its diagnosis, treatment and follow-up. Since the nursing community works closely in association with clinicians in patient care, it is important for them to be aware of the biochemical aspects of human diseases. Textbook of Biochemistry for Nurses including nutrition has been designed to cater to the needs of the nursing students. It is an effort to present biochemistry for nurses including certain topics of nutrition in simple and understandable form. This book is useful for first year B.Sc. nursing and FCBSc nursing students and paramedical courses
