Power of Your Supermind: How to Tap the Wisdom Within Your Mind. This classic work by the spiritual architect of the New Life Foundation demonstrates how to break the cycle of disappointment and failure and establish a new and fulfilling life.

Step-by-step guide shows how to get in touch with your supermind and its power.

From the founding director of the MIT Center for Collective Intelligence comes a fascinating look at the remarkable capacity for intelligence exhibited by groups of people and computers working together. If you're like most people, you probably believe that humans are the most intelligent animals on our planet. But there's another kind of entity that can be far smarter: groups of people. In this groundbreaking book, Thomas Malone, the founding director of the MIT Center for Collective Intelligence, shows how groups of people working together in superminds -- like hierarchies, markets, democracies, and communities -- have been responsible for almost all human achievements in business, government, science, and beyond. And these collectively intelligent human groups are about to get much smarter. Using dozens of striking examples and case studies, Malone shows how computers can help create more intelligent superminds simply by connecting humans to one another in a variety of rich, new ways. And although it will probably happen more gradually than many people expect, artificially intelligent computers will amplify the power of these superminds by doing increasingly complex kinds of thinking. Together, these changes will have far-reaching implications for everything from the way we buy groceries and plan business strategies to how we respond to climate change, and even for democracy itself. By understanding how these collectively intelligent groups work, we can learn how to harness their genius to achieve our human goals. Drawing on cutting-edge science and insights from a remarkable range of disciplines, Superminds articulates a bold -- and utterly fascinating -- picture of the future that will change the ways you work and live, both with other people and with computers.

The noted research psychiatrist and New York Times-bestselling author explores how Transcendental Meditation permanently alters your daily consciousness, resulting in greater productivity, emotional resilience, and aptitude for success. Most of us believe that we live in only three states of consciousness: wakefulness, sleep, and dreaming. But there is so much more. In Super Mind, clinical psychiatrist and bestselling author Norman E. Rosenthal, M.D., shows how the incredibly simple daily practice of Transcendental Meditation (TM) can permanently improve your state of mind during the routine hours of waking life--placing you into a super-mind state of consciousness where you consistently perform at peak aptitude. In his most ambitious and practical book yet, Rosenthal shows how TM is more than a tool for destressing or for general wellness. It is a gateway to functioning physically, emotionally, and intellectually at levels we never knew we could attain.

Written in Rosenthal's trademark style of restraint and intellectual carefulness, Super Mind explores how we can aspire to so much more than we ever thought possible.

Offers information on how to use mental pictures to solve problems, enjoy good health, overcome crises, break self-defeating habits, and combat fear and tension

You have an Invisible Power. It also is an immense scientific secret. It will enable you also to walk among people and obtain what you want and need for a rich and satisfying life. Your Invisible Power is your ability to persuade and command people. The purpose of this book is to show you how to find and how to use your Invisible Power. Once you learn the secret you will enrich every area of your life in a surprisingly delightful way. Your first step toward persuading others is to realize that everything you want is found in other people. Here are just a few of hundreds of secrets you'll uncover in one of Vernon Howard's best selling books: * Two things that will get you what you want ten times as fast * Why it is not selfish to put yourself first * Learn how to predict what people will do * How to persuade a person who brings up an unreasonable objection to your plan * Four romantic words that influence the opposite sex * How to use your mistakes for advancing yourself * How to produce instantly a powerful drive for winning your way * Secrets for getting others to earn money for you * How to read the other person's mind * What your attitudes have to do with winning attention from the opposite sex * To keep yourself excited and enthused about winning your way with people * For interesting stories about men who turned their knowledge of people into cash * Whenever you wish to gain anything in the shortest possible time * Discover the seven magic words that attract people to you instantly * The real reasons you don't have to be handsome or beautiful in order to persuade others * The power of appealing to a person's "picture"
