[(Who Should we Treat?: Rights, Rationing, and Resources ...

How should we allocate NHS resources between different patients and treatments? Increasingly, patients are regarded as “consumers” of medical services, and yet demand for medical care exceeds the resources that are made available for it. How should the NHS manage the dilemmas presented by scarce resources? This book examines the economic, political, and legal environment of patients ...

Who Should We Treat?: Rights, Rationing, and Resources in ...

When the first edition of the book *Who should we treat? Rights, rationing and resources in the NHS* was published in 1995, it immediately became the standard reference on the law of the National Health Service (NHS) in the UK. Given the pace and complexity of the almost continuous series of reforms of the NHS, this would have given the book a short shelf life.

Who should we treat? Rights, rationing and resources in

...

Human rights is the belief that everybody should be treated equally and with dignity no matter what their circumstances; which means nobody should be tortured or treated in an inhuman or degrading way. What is special about human is our humanity. As humans we can think and articulate
